Davies Ajayi

Full-Stack Developer

Email: ajayidavies7@gmail.com | Portfolio: https://daviesajayi.com | GitHub: https://github.com/davies70 | LinkedIn: https://linkedin.com/in/daviesajayi | Phone: (+49) 157 312 12 504 | Kiel, Germany

Profile Summary

Full-Stack Developer building end-to-end applications with React/Next.js frontends and Node.js/FastAPI backends, including AWS cloud systems and AI-powered architectures.

Relevant Experience

Full-Stack Developer (Werkstudent) | Oskar Gerdsen Umzugsunternehmen GmbH | Kiel, Germany | 2024 – current

- Developed logistics dashboards using Next.js and Node.js APIs.
- Digitized container workflows reducing manual processes ~40%.
- Built and optimized REST APIs supporting frontend components.

Software Engineering Intern | Access Bank Plc | Lagos, Nigeria | 2018 – 2019

- Enhanced banking platform with React frontend and backend improvements.
- Built reusable UI components and server endpoints.
- Improved load time by ~30%.

Previous Experience

Freelance Writer | Fiverr | 2016 – 2018

- Delivered 2,000+ freelance projects, demonstrating strong time management, client communication, and requirement gathering.

Research Assistant (NYSC) | State Ministry of Agriculture | Lokoja, Nigeria | 2015 – 2016

- Conducted agricultural research and managed structured data collection workflows for state initiatives.

Selected Projects

DocuGuard – Self-Healing RAG Auditor
GitHub: https://github.com/Davies70/docuguard-self-healing-RAG
Demo: https://docu-guard-self-healing-rag.vercel.app/

- Next.js frontend with FastAPI backend for automated documentation auditing.
- Implemented RAG pipelines using FAISS and LangChain.

Full-Stack File Processing Platform
GitHub: https://github.com/Davies70/Secure-File-Processing-Pipeline
Demo: https://secure-file-processing-ui.vercel.app/

- Built Next.js dashboard with AWS serverless backend.
- Implemented direct-to-S3 uploads and async processing.

.

ThrillerFiend – Real-Time Book Ratings Platform
GitHub: https://github.com/Davies70/ThrillerFiend
Demo: https://github.com/davies70/thrillerfiend

- Built a full-stack web application enabling users to rate and review thriller novels in real time using React, Node.js, and Firebase.
- Implemented secure authentication and real-time database synchronization, enabling reviews to propagate instantly across active sessions.
- Designed scalable client-server interactions and optimized queries to maintain sub-250ms update latency for user-generated content.
- Developed responsive UI components and integrated backend services for seamless user interactions.

Key Skills

- React, Next.js, TypeScript
- Node.js, Express.js, Python, FastAPI
- AWS, Docker, CI/CD
- MongoDB, PostgreSQL, Firebase
- RAG Pipelines, LangChain, FAISS

Education

- Christian Albrecht University, Kiel, Germany — M.Sc. Dairy Science (Dec 2019 – 2026)
- ALX Software Engineering Program — Software Engineering Certificate (2022 – 2024)
- Obafemi Awolowo University, Ile-Ife, Nigeria — B.Sc. Agricultural Science (2009 – 2015)
