PROFESSIONAL SUMMARY

Software Developer with strong full-stack expertise in React, Next.js, and backend systems, experienced in building high-performance, scalable, and user-focused applications. Proven ability to develop, optimize, and deploy responsive web solutions, with measurable improvements in performance and usability. Skilled in Agile environments, cross-functional collaboration, and continuous improvement, with a strong passion for innovative, impact-driven products. Eager to contribute to a fast-growing startup building next-generation technology solutions.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Responsive Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: PostgreSQL, MongoDB, MySQL

Tools & Platforms: AWS, Git, GitHub, CI/CD (GitHub Actions), Docker (basic), Linux, Postman

Practices: Agile/Scrum, Clean Code, Testing (Jest), Performance Optimization, Debugging

PROFESSIONAL EXPERIENCE

Operations & Logistics Associate (Process Digitization)

Oskar Gerdsen Umzugsunternehmen GmbH | Kiel, Germany | Apr 2022 – Present

- Led digitization of manual workflows, reducing operational processing time by 25%+
- Designed structured data tracking systems, improving reporting accuracy by 30%
- Optimized logistics coordination processes, achieving >95% on-time delivery rate
- Identified inefficiencies and implemented scalable solutions, reducing operational errors by 15%
- Collaborated with cross-functional teams to improve system usability and workflow transparency

Junior Software Engineer

Access Bank PLC | Lagos, Nigeria | Mar 2016 – May 2019

- Developed and deployed 10+ scalable web features using React.js and Node.js
- Built reusable UI components, accelerating development cycles by 20%
- Designed and integrated RESTful APIs, improving data flow and system efficiency
- Reduced application load time by 30%, enhancing user experience and performance
- Implemented responsive design techniques, improving usability across mobile and desktop devices
- Collaborated in Agile teams, contributing to sprint planning, reviews, and continuous delivery
- Debugged and resolved critical issues, improving system reliability and reducing downtime

EDUCATION

ALX Software Engineering Program | Holberton School | Online | 2022 – 2024

- Intensive full-stack program covering software architecture, testing, and deployment
- Built real-world applications with modern technologies and Agile methodologies

M.Sc. Dairy Science | Kiel University | Kiel, Germany | 2019 – Present

- Strong focus on data analysis, problem-solving, and research-driven decision making

B.Sc. Agricultural Science | Obafemi Awolowo University | Ile-Ife, Nigeria | 2009 – 2015
